Dear David and Wayne,

Thank you very much for the donation of the steam generator to West Coast Railway Heritage Park in Squamish.

The generator was installed by Mr. Dave Simpson in Pacific Great Eastern steam Locomotive #2 (built 1910), one of the first artifacts the visitor sees upon arriving at the Park. The sight of steam issuing from the locomotive brings "life" to the scene and whets the appetite of the guest for further exploration. The steam also brings a more realistic appearance to the locomotive itself.

Your donation will help make a visit to West Coast Railway Heritage Park a memorable experience for our guests. Thank you once again.

Yours Truly,

Dave Killeen  
Vice President
